

SESSION: Curriculum development IITimeslot: #9 – Thursday, June 16th, 11h00

Abstract TITLE	Type
Development of simulation-based curriculum to support refugee doctors integration into clinical practice in Scotland	ORAL
A New National Programme: Simulation in Psychiatry for Foundation Doctors	ORAL
Developing a Simulation-Based Mastery Learning Induction Programme for Novice Anaesthetists: Improving Trainee Confidence	ORAL
Innovative Curriculum to Teach and Assess Basic Invasive Clinical Skills in Remote Settings	ORAL
Proficient before practice: Graduate simulation-based surgical skills training increases confidence in technical skills	SHORT COMM
Procedural skills deserve attention too! Developing a Train-the-Instructor course for clinical educators	SHORT COMM
Simulation teaching in Slovenian specialization of anaesthesiology	SHORT COMM
First-year of High-fidelity simulations in postgraduate training in a new Simulation Centre	SHORT COMM
Simulation as a strategy for implementing a bundle to prevent hospital-acquired pneumonia in patients on enteral nutrition	SHORT COMM
The Development Of A Faculty Simulation Network Across A Hospital Group Using In-Situ Simulation Competition.	ORAL
