

SESSION: **New Technologies and Innovation II**

Timeslot: **#8** – Wednesday, June 15th, 15h45

Abstract TITLE	Type
Blended learning achievements compared to face-to-face learning achievements in clinical simulation-based teaching	ORAL
Remotely attended simulation-based education to remote learners during the COVID-19 pandemic.	ORAL
Learning surgical skills remotely: Open ended commentary based on peer-to-peer feedback is as efficacious as expert based feedback	ORAL
Efficacy Testing of an Affordable and Realistic Small Bowel Simulator for Hand-Sewn Anastomosis	ORAL
Studying rehabilitation online - simulated client situations for student groups	ORAL
The use of machine learning to interpretation temperature measurement in medical simulation	SHORT COMM
Tecnological nursing education with serious games in laboratory practice	SHORT COMM
Virtual Reality to Examine Pupillary Responses	SHORT COMM
