Consultant in Anaesthesiology and Intensive Care, he developed further into technical officer in emergency medical systems for the World Health Organization. Moved from the Università del Piemonte Orientale where he firstly co-founded the Research Centre in Emergency and Disaster Medicine and after he established and led as Scientific Director the Simulation Centre in Health Science (SIMNOVA) until 2020, he is currently leading the Centro di Simulazione (CeSi) in the Centro Professionale Sociosanitario Medico-Tecnico in Lugano, Switzerland.

Lectured in many national and international scientific congresses and he is author of more than 60 research articles published in peer review journals (see [PubMed](#)). He is editor of the first simulation case book in Italian (see [here](#)) and author of a monograph about debriefing [in Italian; see [here](#)] and about strategic debriefing [in English; see [here](#)]. He is the current Secretary of Society of Simulation in Europe (SESAM) and President of the Italian Society of Medical Simulation (SIMMED). He launched the educational and cultural simulation event SIMCUP® and is co-founder and Editorial Director of SIMZINE®.

Having broad international experiences, he is a simulation enthusiast and he enjoys developing new training and research projects that encourage and promote innovation in healthcare and increase quality of care and patient safety.
