

SESAM Pre Congress

SiReN Research Summit - Tuesday 24 June 2025

Call for Submissions: Showcase of AI Case Studies

Are you working on a groundbreaking project at the intersection of **AI, research, and simulation**? Do you have **valuable insights, lessons learned, or practical applications** to share with the SiReN Research Summit community?

We invite you to submit your case study for the **Showcase of AI Case Studies** session—a dynamic, interactive platform where researchers and innovators will present their work and engage in thought-provoking discussions with the audience.

✦ **We welcome submissions on both completed work and case studies that are currently in progress.**

Session Format

- **Four selected case studies** will be featured.
- Each presenter will have **15 minutes** (5-minute presentation + 10-minute interactive discussion).
- The focus is on **real-world impact, challenges, and lessons learned** in using **AI for simulation research and innovation**.

How to submit

To be considered, submit a **1-minute video** using the **Problem/Gap/Hook** structure:

- ✓ **Problem** - What is the challenge, issue, or opportunity your case study addresses? Why is it important?
- ✓ **Gap** - What remains unknown or unexplored? What are the consequences of these gaps?
- ✓ **Hook** - How does your work fill this gap? How does it extend current knowledge and engage a wider audience?

Selection Criteria

- **Relevance to the Summit Theme** - The case study should align with the summit's focus on AI's impact in simulation research and innovation.
- **Innovative Approach** - Showcases a novel use of AI, a new methodology, or an original perspective on a common challenge.
- **Engagement & Clarity** - Communicates complex concepts in a clear, engaging, and accessible way for a diverse audience.
- **Interactivity Potential** - Encourages thought-provoking discussions and audience engagement during the interactive Q&A session.
- **Diversity of Perspectives** - Preference for case studies that bring different disciplines, contexts, or geographic perspectives into the conversation.

Bonus! The **four selected presenters will receive complimentary registration** to the SiReN Research Summit!

Ready to share your insights?

Submit your 1-minute video and be part of a **lively discussion on AI's transformative role** in simulation research and innovation.

 **Submission Deadline: April 20, 2025**

 **Notification of Selection: Week of May 26, 2025**

 **For submissions and inquiries, contact:** siren@sesamsociety.org

We look forward to seeing your work on AI and sparking great discussions at the **SiReN Research Summit!**
